

Total snow-domination. For serious professionals.

This latest model, renowned for its premium performance & comfort, now has Electric Power Steering with recalibrated front suspension geometry, confirming it as the world's finest utility snowmobile.

The large 1049cc EFI engine, with its great power and torque, is combined with specially calibrated CVT settings to give smooth operation, easy hauling and a seemingly endless supply of power. The unique engine and airbox configuration allowed the whole body - from the front hood and seating to the fuel tank and windscreen - to be designed for optimum rider ergonomics and comfort.

Choose the tough, sure-footed handling of the latest VK Professional II – and dominate the snow.

- ▶ 1049cc 3-Cylinder Genesis® 4-stroke EFI engine
- ▶ Smooth EFI & ISC (Idle Speed Control) systems
- ▶ Electric Power Steering
- ▶ NEW Front spindle & HPG aluminium shocks
- ▶ Camoplast® Cobra WT track - 1.5"/38mm lug height
- ▶ Torsion spring rear suspension with Flip-Up rails
- ▶ Dual-range Hi/Lo transmission with reverse
- ▶ Riding position optimised for comfort & control
- ▶ Elegant and highly efficient body shape design
- ▶ Strong boot grips – more foot space and great grip
- ▶ Spacious rear carrier and powerful LED tail lights
- ▶ Electric hand and thumb warmers for comfy riding

***Whenever, wherever
the snow falls, team
up with your Yamaha***

Being out on the trails or powder is one of life's great feelings, even when you're out there working. So enjoy our snowmobiles. Each one is designed and equipped to deliver supreme handling, performance, comfort, economy and reliability.

It's a winning combination you can depend on from your Yamaha – whether for work or play – along with totally dependable design and engineering that brings you and your machine closer together as a unit – to create a more rewarding riding experience than ever before.

So wherever you ride – on smooth or rough trails, soft powder or up at high altitudes – choose the perfect partner. Your Yamaha.

3-Cylinder Genesis® 4-stroke EFI engine

The durable, ultra-reliable Genesis® 3-cylinder unit features EFI, ISC (Idle Speed Control) and efficient CVT settings, all working together to provide easy starting - even at extremely low temperatures - with smooth, quieter performance and superb fuel economy. The latest radiator design further improves cooling performance.

Electric Power Steering (EPS)

EPS makes it easier to control the machine with accuracy and precision - making you an even better, more relaxed rider. Its computer-controlled actuator provides the optimum level of steering assistance, so the machine feels lighter and more stable during turns, with reduced ski lift. EPS also helps isolate the rider from handlebar kick-back.

Pro Comfort Suspension W/Flip up rails

With this dual-shock system, the damping force of each large diameter (40 mm) shock absorber acts independently, allowing the rider to use 'body force' to ride aggressively when required on difficult terrain. Deep snow performance is supreme and the flip-up rail system is a big advantage when powering up and out in reverse.

Camoplast® Cobra low-loss track

This wide, low-loss, lightweight and durable Camoplast® Cobra track gives excellent floatation and features extrovert axle sprockets with 1.5"/38mm lugs. These mesh precisely with the fully clipped holes in the track, acting like a gear mechanism to deliver the best levels of grip and propulsion, especially for deep snow and heavy hauling.

New front suspension ensures stable cornering and steering

A new spindle design is paired with aluminium HPG front shocks, allowing a specially calibrated set-up that fully exploits the advantages of the new Electric Power Steering system. The long, curved, gull-wing A-arms deliver confident handling with excellent cornering stability - and help avoid under-snow obstacles.

Spacious storage, large fuel tank and bright LED tail lights

The large seat will accommodate the driver and passenger in great comfort (the narrow shape of the large 44-Litre fuel tank helps with this) but it also lifts up to reveal a very spacious storage area. Also designed with the working professional in mind are the strong rear cargo rack and powerful LED tail lights.

<i>Engine</i>	<i>VK Professional II EPS</i>
Type / Displacement	4 Stroke / 1,049cc
Cylinders	3-Cylinder
Cooling	liquid-cooled
Bore x stroke	82.0 mm x 66.2 mm
Carburation	41 mm Mikuni x 3, with BRG, Fuel Injection, Liquid Heated
Intake design	2-valves
Ignition system	Digital T.C.I. w/T.P.S.
Exhaust	2-valves, Rear Exhaust
Clutch / transmission	YVXC, Variable Ratio, High / Low / Reverse Transmission
Disc brake system	Hydraulic, 4 Piston Aluminium Caliper, Lightweight Ventilated Disc, Mechanical Parking Brake

<i>Suspension</i>	<i>VK Professional II EPS</i>
Front suspension system	Independent, Double Wishbone
Front shocks	Aluminium H.P.G
Front travel	161 mm
Rear suspension system	ProComfort w/Flip Up Rails
Rear shocks	KYB, 40 mm Piston, H.P.G. center & rear
Rear Travel	275 mm

<i>Measures / Dimensions</i>	<i>VK Professional II EPS</i>
Overall height	1,455 mm
Overall length	3,270 mm
Overall width	1,165 mm
Track W x L x H	20 inch x 154 inch x 1.5 inch, 500 mm x 3,923 mm x 38 mm
Track Type	Camoplast Cobra WT
Ski stance (ctr. to ctr.)	990 mm
Fuel tank capacity	44.6 litres

<i>Features</i>	<i>VK Professional II EPS</i>
Electric start	Standard
Reverse	Standard
Hand & thumb warmers	Standard, 9 Position, Adjustable, Separate / Adjustable Passenger Grip Heating Standard
Headlight watts, type	60/55W Halogen x 2
DC output	Standard

Snowmobiles are built to operate within their design limits. For durability, reliability, but most important of all, operator safety, under no circumstances should the recommended capacities identified in the owner's manual be exceeded. Consult your snowmobile dealer when selecting a snowmobile for your particular needs.

Always wear a helmet, eye protection and protective clothing. Always ride responsibly and within your limitations, respecting the environment as well as country and local laws. The riders depicted are professionals; don't attempt to emulate them. The specifications, measurements and appearance of Yamaha products will be varied from time to time without notice, and as shown here are illustrative only and are not a contractual description of products. Some models are shown with optional accessories.
